

PHARMACISTS

The Best Care

The Best Careers

Go Ahead, Try Them All

VA pharmacists have a rich pick of career paths.

VA offers more opportunities to new pharmacists than any health system in the private sector. VA pharmacists pursue staff and clinical careers, as well as management, education, and research positions. They round with interdisciplinary care teams, consult directly with patients, work with advanced pharmacy technologies, run clinics, and may even obtain prescriptive authority. In addition to a competitive salary, VA pharmacists enjoy a robust Federal benefits package.

- 13 to 26 days paid vacation accrued annually
- 13 days sick leave per year
- 10 Federal holidays
- Exceptional education support and student debt reduction programs
- Flexible scheduling
- Stable health and retirement benefits
- One license covering all 50 states
