

Pharmacy Student Council

2021-2022

History

Previous to 2015, student council operations were performed by APhA-ASP, but it was decided that this work should be performed by a separate group altogether. The work to separate the functions of student council from APhA-ASP to an independent student council started in 2015 and its first council was for the 2017-2018 academic year when the student body voted on the separation. Now the pharmacy student council operates separately from any other organization and serves to support all students and organizations equally.

Mission

The PSC is dedicated to representing the views, ideas, and concerns of the student body. The PSC will facilitate equal representation among the three locations and value the voice of each student of the School of Pharmacy. The purpose of the student council is to support individual pharmacy students, student organizations, and the student body at the Kansas City, Columbia, and Springfield locations of the School of Pharmacy. The PSC shall serve as a liaison between students and university administration.

Advisors and Officers

- ★ President: Elly Glazier
- ★ Administrative Vice President: NiNi Truong
- ★ Executive Vice President: Somia Hamed
- ★ SGA Senators: Zach Painter and Amy Janowski
